

# 2ND INTERNATIONAL SYMPOSIUM INFECTION-ASSOCIATED CANCERS

March 12, 2012 13:00-17:00    March 13, 2012 9:00-12:20  
The Hokkaido University Conference Hall 「フラテホール」 (Kita15, Nishi7, Kita-ku, Sapporo)

**Graham Taylor** (The University of Birmingham)

Epstein-Barr virus associated malignancies: phase I clinical trials of a therapeutic vaccine.

**Hironori Yoshiyama** (Hokkaido University)

Latent expression of Epstein-Barr virus genes, BNLF2a and BNLF2b and their oncogenic roles

**Masashi Fukayama** (The University of Tokyo)

Epigenetic Abnormality in Epstein-Barr virus-associated Gastric Carcinoma

**Mari Kannagi** (Tokyo Medical and Dental University)

The roles of acquired and innate immune responses on disease development in HTLV-1 infection

**Masahisa Jinushi** (Hokkaido University)

Identification and characterization of negative regulatory mechanisms to nucleic acid-mediated innate immunity

**Shigetsugu Hatakeyama** (Hokkaido University)

TRIM proteins in inflammation and carcinogenesis

**Eran Elinav** (The Yale University School of Medicine)

The NLRP6 inflammasome is a regulator of host-microflora interactions in health and disease

**Hélène Bierre** (The Pasteur Institute)

*Listeria monocytogenes* hijacks the chromatin-remodeling machinery to modulate interferon responses

**Toshiya Hirayama** (Nagasaki University)

Pleiotropic action of VacA toxin of *Helicobacter pylori*

**Isabelle C. Arnold** (The University of Zurich)

*Helicobacter pylori* infection prevents allergic asthma in mouse models through the induction of regulatory T cells and tolerogenic dendritic cells.

**Masanori Hatakeyama** (The University of Tokyo)

Cellular targets of *Helicobacter pylori* CagA oncoprotein

**Organizers** : Akinori Takaoka, Hironori Yoshiyama, Masahisa Jinushi
