岐阜大学

Students
registered in
Both/either Univ.

(Teaching staff)

Partner University

*Sustainable Circulation System of Postgraduate Programs
by International Collaboration*

New Type of International Collaboration between both Universities in the Postgraduate Education Programs

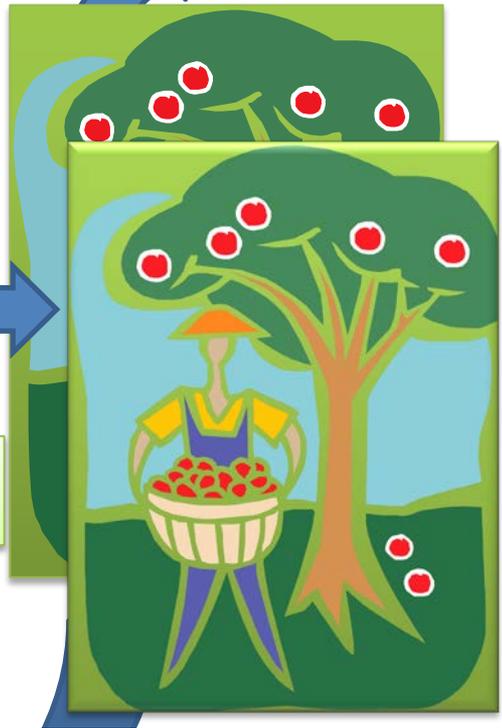

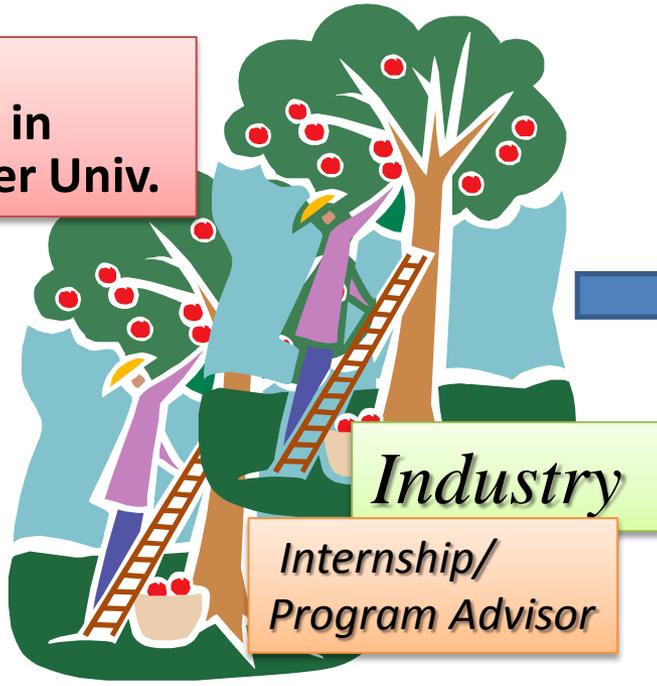

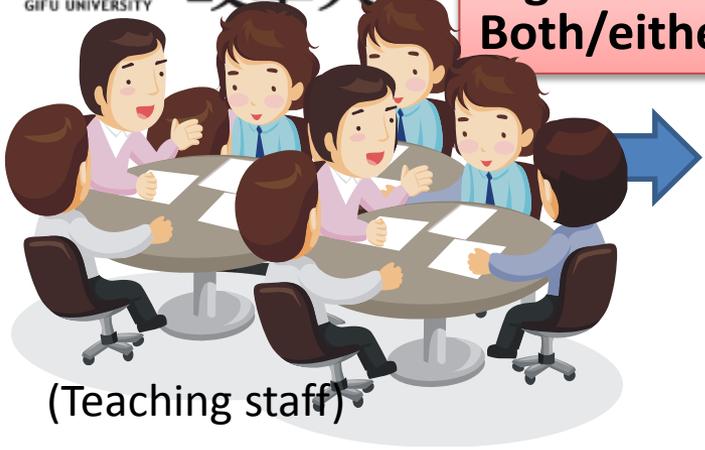

**Dialogue/
Planning**

*Collaboration works for
Education Programs & Res.*

Benefits & Sharing

(Teaching staff of)
国立大学法人
岐阜大学
GIFU UNIVERSITY

**Students
registered in
Both/either Univ.**

*Sustainable Circulation System of Postgraduate Programs
by International Collaboration*

Academic Activities of Indonesian students

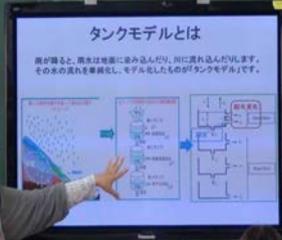

Gifu University Rearing Program for Basin Water Environmental Leaders(BWEL):

BWEL Program was selected by Japanese Government in 2009. The aim of the rearing program is to foster environmental leaders who can precisely understand the extremely serious problems that developing countries face in the basin water environment in a multidirectional field of vision, and can design and enforce strategic solution measures and preventive approaches for the occurrence of new problems.

Lecture by Dwi Priyo Ariyanto (D3)

Lecture by Edwina Zainal at Gifu Municipal Yonan Junior High School

Gifu University Global Environment and Energy Course(GU-GLEE)

was established to nurture highly-educated professionals who can serve as future leaders in solving environmental and energy problems both globally and locally. All lectures and seminars on cutting-edge technologies in environmental and energy engineering are conducted in English. In addition, students are required to take part in internship programs. International students are placed in good-standing Japanese companies.
