Course

Advanced Research Course

This course offers cutting-edge classes in specific areas of expertise. As lecturers include many researchers from overseas universities and other institutions, their lectures include content that can only be studied at HSI. The lecturers also include researchers in Japan at the forefront of their fields.

82 courses

Global Liberal Arts Course

This course offers classes in interdisciplinary fields and those with liberal arts elements. It requires no expertise and is open to students from a wide array of academic backgrounds, such as liberal arts and the sciences.

63 courses

HSI extension/ professional program

This program offers courses for working adults to engage in re-learning as well as the acquisition and development of expertise. Those who have successfully completed the program will be issued a digital badge. Please note that although students are also eligible to attend this program, they cannot earn credits for the courses taught in Japanese.
